SUBJECT: Urgent Request to Fix Wastewater Leakage in Anna Nagar

Respected Sir/Madam,

I, John Doe, a resident of Anna Nagar, would like to bring to your attention the persistent issue of wastewater leakage in our area. There are multiple spots where sewage pipes are leaking, causing stagnant water to accumulate on the streets. This not only creates a foul odor but also poses a serious health hazard due to the risk of waterborne diseases. The leakage has made it difficult for residents to walk or drive through the affected areas, putting our safety at risk.

Date: March 25, 2025

Department: Sewerage Department
